

FS 1500 Series Access Floor System

- LEGEND**
1. Camino FS Series panel with high pressure laminate.
 2. 3/4" wide x 1 1/4" deep steel stringer.
 3. Stringer gasket.
 4. 1/4"-20 galvanized flat head machine screw.
 5. Corrosion resistant steel pedestal head.
 6. 3/4" solid steel stud.
 7. Vibration-proof locking device.
 8. 7/8" square galvanized pedestal tube.
 9. Corrosion resistant steel base plate.

- LEGEND**
1. Camino FS Series bare panel with painted finish.
 2. 1/4"-20 corrosive resistant captured fastener.
 3. Corrosion resistant steel pedestal head.
 4. 7/8" square galvanized pedestal tube.
 5. Vibration-proof locking device.
 6. 3/4" solid steel stud.
 7. Corrosion resistant steel base plate.

PANELS

FS1500/CR COMPUTER ROOM PANEL:

The combination of cementitious core strength and welded steel outer sheets have made this a superior and flexible panel to meet every building requirement.

The FS 1500/CR panel combines a die cut steel top sheet and die cut formed bottom pan that are structurally welded and injected with foamed cement. The surface covering is typically a high pressure laminate, or reinforced vinyl.

FS1500/GO GENERAL OFFICE PANEL:

The combination of a cementitious core and welded steel outer sheets provide superior strength and acoustics over hollow steel access floor systems.

The surface preparation is typically bare, installed on stringerless understructure with corner bolted panels.

PANEL TYPE	1500/CR IMPERIAL	1500/CR METRIC	1500/GO IMPERIAL	1500/GO METRIC
Design Load*	1500 lbs.	6.6 kN	1500 lbs.	6.6 kN
Uniform Load**	450 lbs.	23.11 kN/m ²	450 lbs.	23.11 kN/m ²
Rolling Load ***	1250/1000 lbs.	5.6/4.4 kN	1250/1000 lbs.	5.6/4.4 kN
Safety Factor*	Min. 2.0	Min. 2.0	Min. 2.0	Min. 2.0
Size	24" x 24"	600 mm x 600 mm	24" x 24"	600 mm x 600 mm
Finished Floor Heights	3" to 60"	75 mm to 1500 mm	2 1/2" to 24"	62 mm to 600 mm
Understructure	Bolted Stringer	Bolted Stringer	Cornerlock	Cornerlock
Floor Finishes	High pressure Laminate Conductive Vinyl	High pressure Laminate Conductive Vinyl	Free lay carpet tile Factory bonded carpet	Free lay carpet tile Factory bonded carpet

* Design Load is the load that can be applied to an access floor panel on actual understructure, which when the load is applied and released, the panel will not exceed the yield point (beyond 0.010" permanent set) and return to its original state. The Design Load panel will also have a minimum Ultimate load of 2 X Design Load. Design and Ultimate loads are applied to a 1 square inch area of the panel at the weakest point of the system.

**Measured on 1 sq.ft. or 30 cm x 30 cm area.

*** 3" diameter (76mm) x 1 13/16" wide (46mm) wheel/6" x 2" wheel.
